The student and graduate program/department have established the committee listed to meet Graduate School and program requirements. The doctoral final examination report form will be sent to the Graduate School for committee approval, and then to the graduate program/department. The student and Graduate Program Assistant should work together as needed to establish a timeline for completion of the exam. When the exam is complete and the program approves the committee, the form will be sent to all members of the committee for their signature and will be complete once all members have signed. Full-time registration (five dissertation hours or the corresponding coursework requirement for DMA or AUDD students) is required during the semester in which the defense or exam is passed. If this form is being filled out by the unit, this information will be shared with the student.
